

Core Drill Set

Staring core drill set consisting of the five most common sizes for plumbing and general construction work.

The core drills provide fewer vibrations, thus increasing work comfort.

The core drills are standard dry drills but can advantageously be used as wet drills, as this will extend the life of the drill and the plates.

The core drills are 150 mm deep and have an M14 thread. For the best performance and results, it is recommended to use suitable tools with a minimum power of 850W. The machine should also be able to deliver a minimum of 3000 rpm and have variable speed control.

Drill set:

Delivered in an aluminum trolley containing:

- 5 dry drills in sizes: Ø 32-52-82-112-132 mm
- Center drill
- 300 mm extension
- Adapters for SDS coupling

Used for:

- Bricks
- Limestone
- Roof tiles
- Sandstone
- Granite
- Hard stones”

MODEL	KERNEBORSÆT
Staring no.	STD-014-320
Weight	9,5 kg
Height	600 mm
Length	340 mm
Width	200 mm

WITH DIAMOND PLATES FOR **LONGER LIFESPAN**
