

# Knife Pump

## STP10 SERIES

[ STP10-2.2 ]

[ STP10-2.2T ]

[ STP10-3T ]

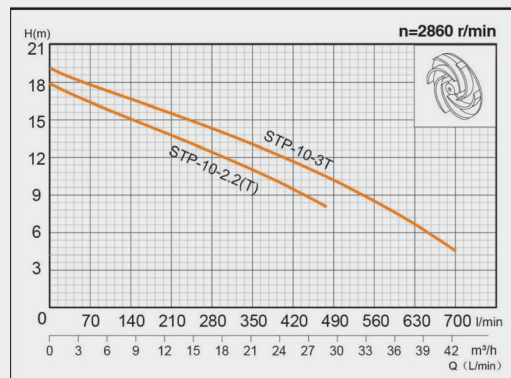

Special knife pump series in 2 sizes, built with a separate high-speed knife function at the inlet, preventing impellers from blocking. All 3 sizes are made of cast iron, making them resistant to saltwater.

The series consists of one 230V and two 400V pumps.

With the cutter function, all 3 models are suitable for pumping black sewage water.

The STP series is equipped with a thermal protection that shuts off if the pump becomes too hot. The safety feature automatically resets.

Please note! The pump is also available in other sizes, refer to the product sheet for additional information and technical data.

MODEL	STP10-2.2	STP10-2.2T	STP10-3T
Staring no.	STP-10-2.2	STP-10-2.2T	STP-10-3T
Volts (gV)	230	400	400
Hz	50		
Outlet size (inches)	2	2	2,6
Motor kW	2,2	2,2	3
Motor BHP	2,99	2,99	4,1
Max. Lift height (m)	17	16	20
