

# Sewage Pump

## STP-1300C [STP-1300C]

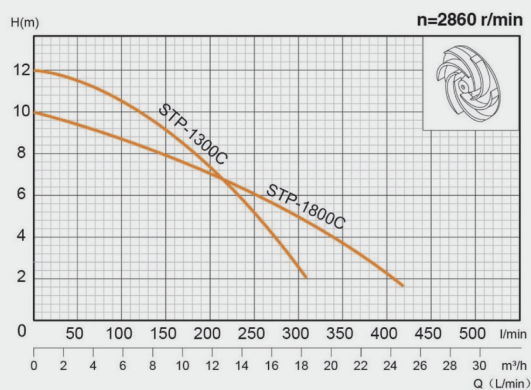

Sewage pump with knife constructed with a cast iron pump housing and stainless steel motor housing.

Supplied in 230V.

The pumps are equipped with a float switch for start/stop operation.

With the cutter function, the model is suitable for pumping sewage.

The STP series is equipped with a thermal fuse that turns off if the pump becomes too hot. The fuse automatically resets.
