

Piccolo Silo

1,8 m³

The Piccolo silo from is the smallest silo in our standard program.

The silo has a capacity of 1.8 m³. It is delivered with a flange that fits a butterfly valve or can be connected directly to a screw conveyor/mixer. The silo is designed for filling from Big Bags with a "nose" (spout).

However, it can be made to accommodate flat-bottomed Big Bags but requires an additional attachment box.

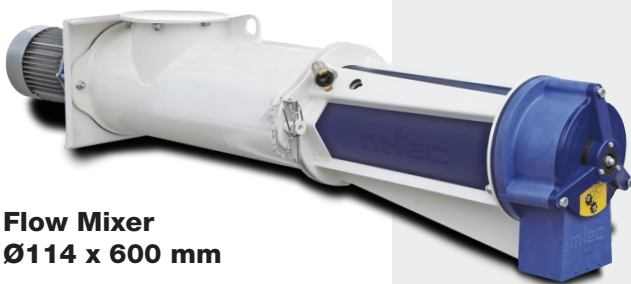

Our 1.8 m³ Piccolo Silo comes with:

- Galvanized adjustable telescopic legs
- Forklift pockets for lifting with a truck
- Lifting lugs
- Sealed dustproof lid
- 1" angled pipe for air venting
- Ø250mm butterfly valve
- Vibrator

Silo Specifications:

- Approx. capacity: 1.8 m³
- Weight without material: 500 kg
- Minimum height: 2530 mm
- Maximum height: 3390 mm
- Legs: 2 height-adjustable legs
- Length/width: 1500 x 1500 mm
- Screw conveyor length: As desired
- Height under screw conveyor: Variable

NOTE: ALL SILO SOLUTIONS FROM STARING CAN BE CUSTOMIZED TO MEET SPECIFIC NEEDS AND REQUIREMENTS!
