DEHUMIDIFIERS
S-Series

Professional, reliable dehumidifier supplied with a container and hose. Collected water can be stored in a convenient 7-liter container or drained directly into a drain using the included drainage hose.

The dehumidifier can be set to start and stop automatically at the specified humidity level.

Features:
- Electronic control with the option to set start and stop times.
- Timer for limited-time operation.
- Option to set operation based on humidity.
- Automatic defrost function.
- However, it is not suitable for use in aggressive environments such as pigsties, etc.
- Easily washable removable air filter.
- Steel casing.
- Foldable handle.
- 7-liter container for water collection.
- Option to connect a hose for direct drainage into a drain.

Example of use:
- Construction
- After flooding in buildings, basements, etc.
- Repairs after water damage.

7 L. CONTAINER
(Only for 30L. og 50L.)
